

Sir,

I refer to the above caption and would like to inform you that I am a Police Officer (detective) for the past seven years attached to an elite unit namely the Anti Kidnapping Unit.

It was in the year 2001 I met with Marisa when dealing with a kidnapping case which we had absolute no leads on. It was a nine-year-old girl who was missing for three days with no intelligence as to her whereabouts.

Marisa came into the picture and after briefing her on the situation she was able to give the location of the girl and the position in which she was found.

All this information was given via telephone. The head of our department was so impressed that when we are faced with similar circumstances he would insist that Marisa be our first call.

Marisa's ability was first criticized by other officers on the field but with the assistance and results of her special gift she has made believers in many.

I can go on showering her with praises on a number of cases for which she was instrumental in getting back hostages alive, but my comments will all be the same.

In a time of crisis, she proved to be dependable and most of all patient. It is unfortunate that I cannot use any names in this referral but I am sure you will understand due to the sensitive nature of the cases.

Sir, if you need any further information please feel free to contact me via e-mail or phone.

Regards,

Roger Coutain
